

# THE PITSTOP

## Security Performance Card

Agent: Beeglie Lynchini

Scan ID: SCAN-XXXXXXXX

Date: March 30, 2026

**78 / 100**

### Executive Summary

This agent demonstrates strong fundamentals with solid identity & auth and backup & recovery practices. Key tune-up opportunities exist in memory & encryption and infrastructure. Addressing 5 items would improve the score to 100/100 (A+).

### Category Breakdown

Identity & Auth	<div style="width: 100%;"><div style="width: 100%;"></div></div>	20/20
Memory & Encryption	<div style="width: 75%;"><div style="width: 75%;"></div></div>	15/20
Backup & Recovery	<div style="width: 100%;"><div style="width: 100%;"></div></div>	20/20
Infrastructure	<div style="width: 50%;"><div style="width: 50%;"></div></div>	10/20
Supply Chain & Skills	<div style="width: 65%;"><div style="width: 65%;"></div></div>	13/20

Checks Passed: 15 of 20 | Failures: 4 | Warnings: 1

# Detailed Results

## IDENTITY & AUTH (20/20)

PASS	TOOLS.md permissions	Restricted (600)	[+5]
PASS	API key exposure scan	No keys found in workspace .md files	[+5]
PASS	.env file protection	No .env files in workspace	[+5]
PASS	SSH key permissions	No SSH directory found	[+5]

## MEMORY & ENCRYPTION (15/20)

PASS	Memory directory	Found with 20 files	[+5]
PASS	Memory encryption	Encryption artifacts detected	[+5]
FAIL	Memory permissions	Directory permissions: 755 (should be 700)	[0/5]
PASS	Memory size hygiene	MEMORY.md is 7128 bytes (under 50KB)	[+5]

## BACKUP & RECOVERY (20/20)

PASS	Backup scripts	Found backup-related files	[+5]
PASS	Recent backup	Found recent archive	[+5]
PASS	Cloud backup tool	rclone detected	[+5]
PASS	Recovery documentation	Resurrection/recovery doc exists	[+5]

## INFRASTRUCTURE (10/20)

FAIL	Firewall	No active firewall detected	[0/5]
PASS	Non-root execution	Running as node	[+5]
PASS	Container isolation	Running inside Docker	[+5]
FAIL	Auto-updates	No automatic update mechanism	[0/5]

## SUPPLY CHAIN & SKILLS (13/20)

WARN	Skill count	53 skills - consider pruning unused	[+3/5]
PASS	.gitignore protection	Prevents accidental exposure	[+5]
PASS	Audit logging	Audit directory with 2 log(s)	[+5]
FAIL	Workspace permissions	Directory permissions: 755 (should be 700)	[0/5]

# Tune-Up Recommendations

Address these items to boost your score from B to A+ territory.

## Required Tune-Ups (4 items)

---

### 1. Memory permissions

Category: MEMORY & ENCRYPTION | Potential impact: +5 points

**Issue:** Directory permissions: 755 (should be 700)

**Fix:** Restrict memory directory: `chmod 700 memory/`

### 2. Firewall

Category: INFRASTRUCTURE | Potential impact: +5 points

**Issue:** No active firewall detected

**Fix:** Enable a firewall: `sudo ufw enable` (or equivalent)

### 3. Auto-updates

Category: INFRASTRUCTURE | Potential impact: +5 points

**Issue:** No automatic update mechanism

**Fix:** Enable automatic security updates: `sudo apt install unattended-upgrades`

### 4. Workspace permissions

Category: SUPPLY CHAIN & SKILLS | Potential impact: +5 points

**Issue:** Directory permissions: 755 (should be 700)

**Fix:** Restrict workspace: `chmod 700 /path/to/workspace`

## Advisory (1 item)

---

### 1. Skill count

Category: SUPPLY CHAIN & SKILLS | Potential impact: +2 points

**Issue:** 53 skills - consider pruning unused

**Fix:** Review installed skills and remove unused ones to reduce attack surface

---

**Potential score after all tune-ups: 100 / 100 - Grade A+**

A few targeted fixes will make this agent exceptional.
